

Forum Framer

Good for providing attendees with ways to document and share reflections and responses during the Outcomes and Impact Forum.

Forum Framer can be distributed to attendees at the Outcomes and Impact Forum to capture their reflections and contribute to evaluation.

Consider posing the central question in a breakout discussion to explore what motivated attendees to become involved; how they would define successful outcomes; and the difference these would make to them and their community.

Could you feed attendees' interim recommendations into your partnership meetings and workshops, and iterate them through **Growing Collaboration?**

Which aspects of the outcomes do attendees feel should be prioritised?

Do attendees see anything that your partnership has missed?

2. Thoughts and Questions

1. What matters to me

3. Recommendations and Ideas
