

Forum Poster

Good for promoting your Outcomes and Impact Forum to local people and communities and inviting them to take part.

Forum Poster can be completed in tandem with **Forum Formula** to identify audiences with a stake in the issue or concern and to involve them in the evaluation of outcomes.

This tool can also follow-up from **Participation Postcard** to update people and communities on the progress of your Participation Request and invite them to continue the conversation.

Consider how you will share your Forum Poster:

- Will it be printed as a poster to be pinned up on local community notice-boards?
- Will you use it as the basis for a leaflet to be distributed in areas with high footfall?
- Will you share the Forum Poster on social media?
- Will you embed it in an email to target specific communities of interest?

Make a difference, be the difference.

Participate & build a better community

Participation Requests are a policy measure that help people and communities to shape local decisions and services in Scotland.

[community group here] and *[public service authority here]* invite you to evaluate our Participation Request at an **Outcomes and Impact Forum** on *[date and venue here]*. To find out more about how you can take part, please contact us at:

 *[telephone number here]*

 *[email address here]*

Edit the text in this tool to include relevant information about your Participation Request, your Outcomes and Impact Forum, and your contact details.

Make a difference, be the difference.
