

Participation Postcard

Good for raising local awareness of your Participation Request and inviting other communities to become involved.

Participation Postcard can be used to follow on from **Mission Control** to bring additional voices, experiences, and perspectives into your Participation Request.

Consider how you will share your Participation Postcard:

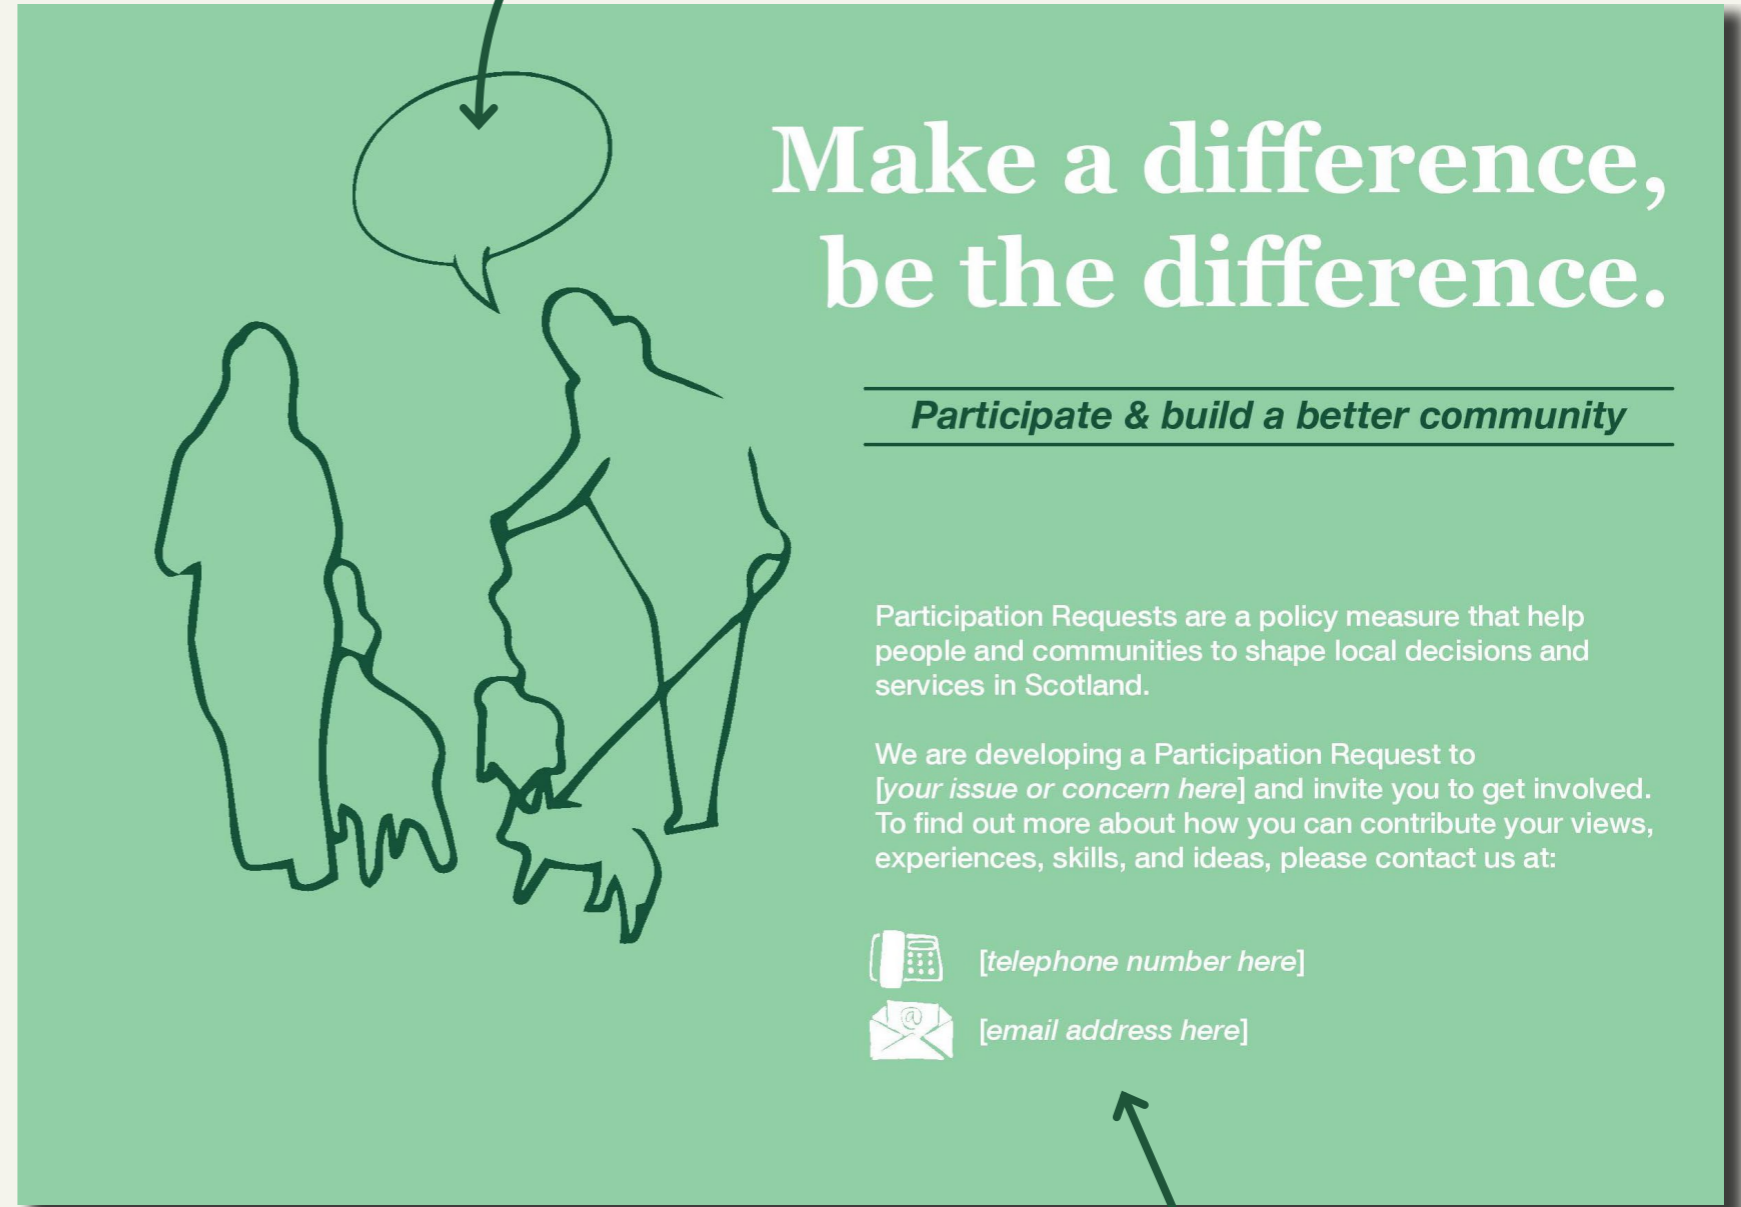

Will it be printed as a poster to be pinned up on local community notice-boards?

Will you use it as the basis for a leaflet to be distributed in areas with high footfall?

Will you share the Participation Postcard on social media?

Will you embed it in an email to target specific communities of interest?

Add a question, statement, or provocation related to your issue or concern to the speech bubble to engage people in the discussion.

Make a difference, be the difference.

Participate & build a better community

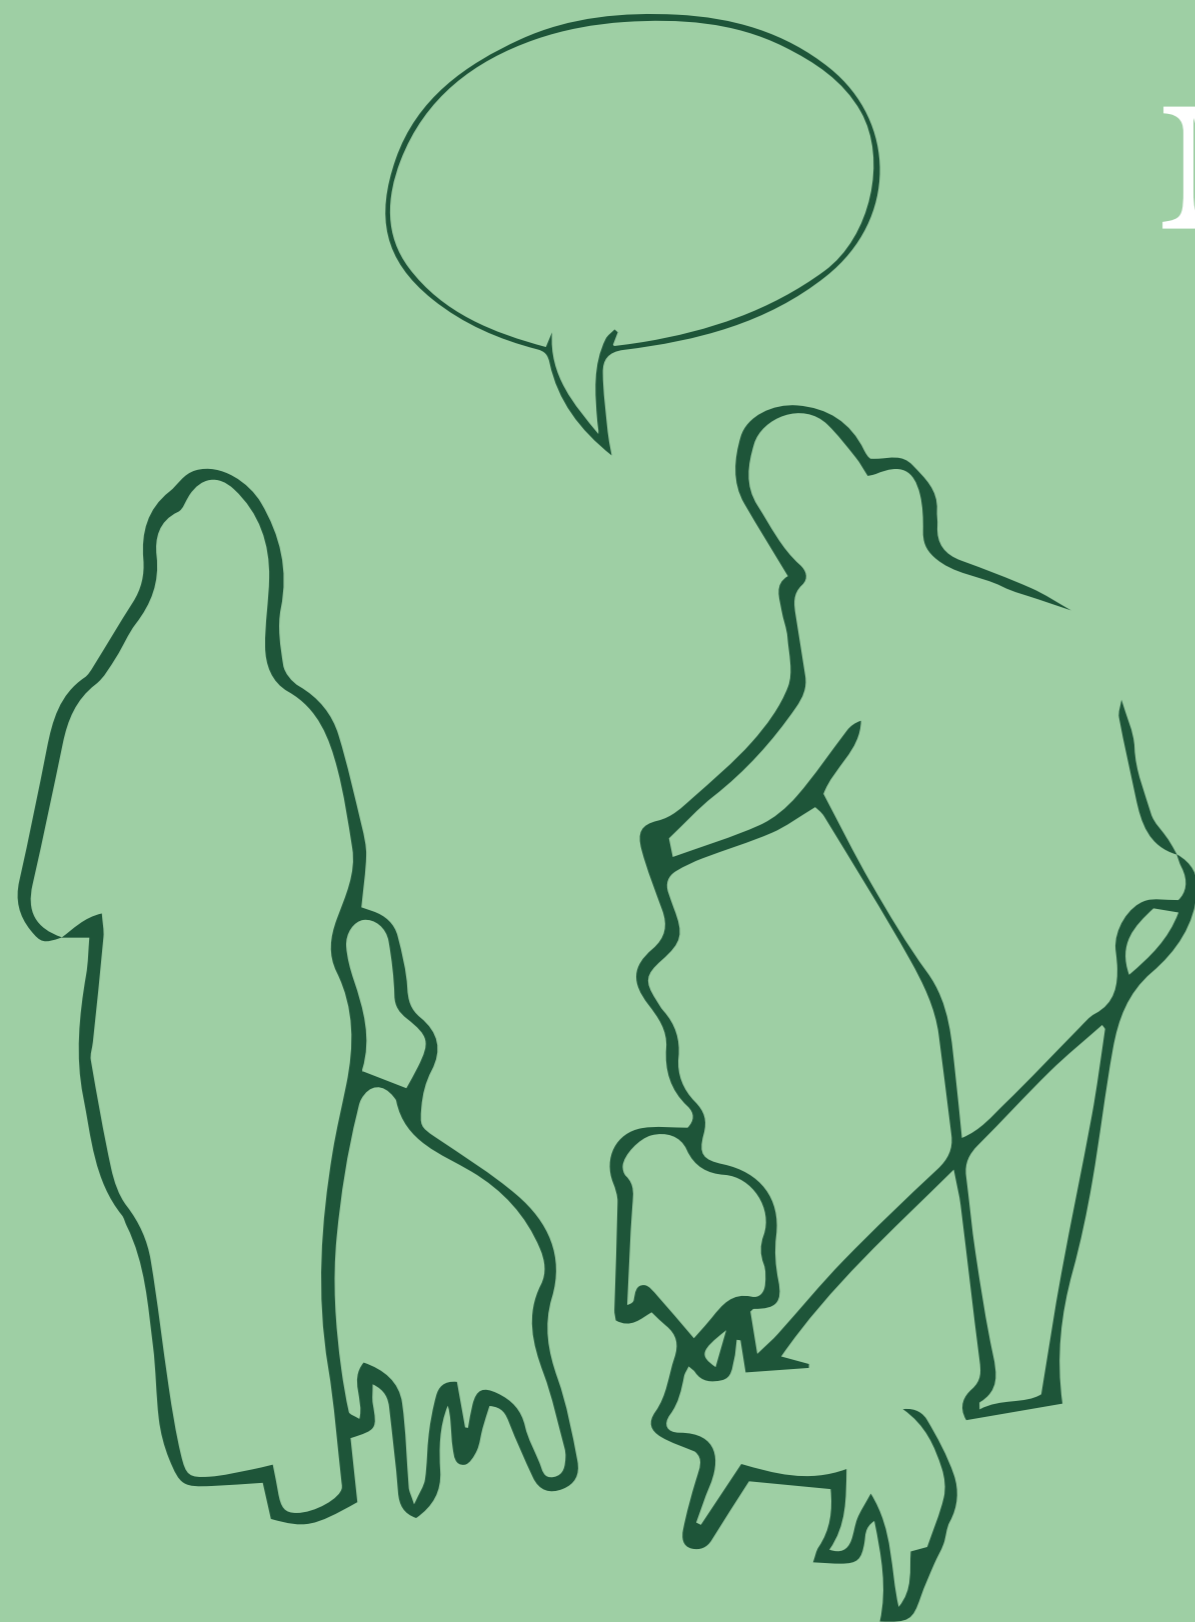

Participation Requests are a policy measure that help people and communities to shape local decisions and services in Scotland.

We are developing a Participation Request to [your issue or concern here] and invite you to get involved. To find out more about how you can contribute your views, experiences, skills, and ideas, please contact us at:
